Good Communication, Problem solving, Team player, Dedication

Language known: -
English, Marathi, Hindi

TECHNICAL PROJECT EXPERIENCE

Educator – An E-Learning Platform
- Developed Educator, an e-learning platform using React.js, Tailwind CSS, and useContext for state management.
- Implemented authentication using Clerk and managed routing with React Router for seamless navigation.
- Deployed the project on Netlify and GitHub, ensuring accessibility and smooth performance.

Dance Academy (Mini project)
- Spearheaded the creation of a dynamic platform for a Dance Class, ensuring a seamless user experience.
- Used HTML, CSS, JS for building user interfaces, developing new user-facing features, and ensuring the technical feasibility.
- Problem-solved to deliver visually appealing pages that feature user-friendly design and clear navigation.

Spotify Clone - musicray
- Developed MusicRay, a Spotify clone using React.js, Context API, and Tailwind CSS, featuring dynamic playlists, song controls, and a modern UI
- Deployed the project on Netlify and GitHub, ensuring a responsive and seamless user experience.

Portfolio
- Developed a responsive portfolio website using React.js, Tailwind CSS, and hooks, ensuring optimal performance across devices with a clean and modern design.
- Integrated reusable React components and custom Tailwind utility classes, leveraging hooks to manage state and side effects, enhancing flexibility and maintainability.
- Implemented responsive layouts and interactive elements, prioritizing user experience (UX) and accessibility standards, while utilizing hooks for dynamic content updates and improved performance.

EXPERIENCE
