SUMMARY

With a Bachelor's degree in Computer Application, I am a multilingual Front-End Developer with expertise in creating user-friendly interfaces using languages like React js, JavaScript and HTML, CSS.

SKILLS & QUALIFICATIONS

TECHNICAL SKILLS: -
React js, Redux, JavaScript, ReactNative, Tailwind CSS, Material UI, Bootstrap, HTML, CSS

OTHER SKILLS: -
Good Communication, Problem solving, Team player, Dedication

Language known: -
English, Hindi, Marathi

EXPERIENCE

Xform Technologies **April 2026 – Present**
- Integrated RESTful APIs into React applications for dynamic data fetching and seamless user interactions.

Ekatta Innovators LLP **July 2025 – April 2026**
- Integrating RESTful APIs into React-based applications to deliver real-time, responsive user experiences
- Working closely with cross-functional teams to build scalable frontend components

TECHNICAL PROJECT EXPERIENCE

Mahasewa
- Developed a full-stack platform using **React.js, Tailwind CSS, and Spring Boot**, enabling seamless management of vendors, societies, and individual users through a responsive and user-friendly interface.
- Implemented **vendor, society, and individual management modules**, along with reusable React components and RESTful Spring Boot APIs to ensure scalable, maintainable, and efficient application architecture.
- Integrated invoice management and Razorpay payment gateway, enabling secure online payments and streamlined billing workflows, while developing comprehensive course, book, and magazine management features for efficient content administration and user access.

Warehouse Management System (WMS)
- Developed a responsive **Warehouse Management System** using **React.js, Tailwind CSS, and Spring Boot**, streamlining warehouse operations with a user-friendly and scalable application architecture.
- Implemented modules for **product, inventory, warehouse, stock, supplier, purchase, and order management**, with RESTful APIs for seamless communication between the frontend and backend.
- Developed features for **stock receiving, stock transfers, inventory tracking, order processing, and real-time stock updates**, improving operational efficiency and reducing manual inventory management.

Elegant Prime
- Developed and maintained both admin and client-side interfaces using React.js, Material-UI ensuring smooth user experience and responsive design.
- Integrated RESTful APIs for dynamic data rendering and seamless communication between frontend and backend.
- Implemented authentication and authorization mechanisms to secure access for different user roles (admin, Biller, Buyer etc.).
- Collaborated with team members using Git and Agile practices to deliver features on time

EDUCATION

Bachelor of Computer Applications | GPA: 60% | Dr Babasaheb Ambedkar Marathwada University Aurangabad **2021 - 2024**

Higher Secondary Certificate | GPA: 88% | HSC **2019 - 2020**

Secondary School Certificate | GPA: 81% | SSC **2018 - 2019**
